AN ISO 9001:2015 CERTIFIED COMPANY

Mr. ANIL LALWANI (Director)
VERGIN ELECTRICAL ACCESSORIES, Ahmedabad.

ABOUT US

VERGIN ELECTRICAL ACCESSORIES is established in 1999, an "ISO 9001:2015" certified manufacturing company. We are leading manufacturer company of Electrical Products like Wires, Leds and many more items which is based in Ahmedabad, Gujarat. We manufacture more than 1500 products which has huge range in our industry. Our Strength is our staffs their smart work has made possible, which enlarge our employee strength from 25 to 350 in a short duration of time.

OUR MISSION

With all the support and positive feedback from the people, "VERGIN" has grown as a brand in the past few years. It's our mission to achieve zero emission and sustainable growth, a much needed all over the world. Here, we are working to make all types of electrical goods in better quality. In future, one can open or convert their stores in one brand i.e. VERGIN; the complete solution of all your electrical problems. Our Mission is to achieve a benchmark globally by Dec-22 and we are 24 x 7 working on it. We are true example of putting words into action on how the energy transition can succeed sustainably through digital energy management.

OUR VISION

Our vision statements also define our company purpose, the focus on its goals and aspirations. These statements are designed to be uplifting and inspiring. They are also timeless even if the company changes its strategy. Because we manufacture all types of products in our nation. To make our nation more brighter than others. And all of these products are highly energy efficient, which eventually help to create a clean, green, and healthy environment in every segment of the society. The company has successfully manufactured the high brightness LED lights in urban areas as well as rural areas, outdoor led lights, and indoor lighting in homes and offices. To produce the highest quality products at the minimum cost and deliver them to the customer on time. "A promise made is a promise kept".

QUALITY ASSURANCE SYSTEMS

- To ensure performance, longevity and customers satisfaction, consistently conducts tests to guarantee LED reliability.
- Each phase of our manufacturing process undergoes high quality control to deliver the best results.
- The first step to assuring quality starts with exceptional supplier quality management.
- New batches of supplied materials are confirmed, examined and inspected. This process allows LED to utilize high-quality components to manufacture top of the line fixtures.
- Once assembled, fixtures are individually tested to ensure proper functionality. Components are designed and tested to meet public safety standards. Even before and after packing, LED lights go through additional rounds of testing. The purpose of BIS is to examine the samples of products.
- Our full spectrum approach guarantees quality at every turn, which in turn delivers quality directly to customers.
